Faculty: Jackie Stevenson and the Pebble Ledge Herd of seven horses and a zebra.

Location: Pebble Ledge Ranch Novelty Ohio 44072 USA (limited lodging on the ranch)

Program Focus:

- Engage with horses entering the world of *Horse and Herd* as their guests rather than bringing horses into the human world
- Develop our ability to deeply listen to our inner voice, to listen deeply to others, to listen to the horse, to listen to the world around us for what is essential to know, and to listen for the best possible outcome and be there to greet it.
- Strengthen our capacity to coach people guided by horses and to deliver leadership and team building retreats with the guidance of horses.
- Learn creative approaches and experiential learning activities with horses for professional development and personal discovery, spiritual awakening and healing.
- Deepen our relationship with horses to bring out the best in each other and our horses.

We will be working with a natural herd of seven horses and one zebra. You will have the opportunity throughout the training to practice what you learn.

The format of the 2018 Experiential Learning with Horses Practitioner Certificate Program will be four and a half days. Each day will provide experiential learning with horses and nature and facilitation practice with people guided by horses.
